

## Lakeshore Condominium

The Lakeshore is a charming spa village, healthy-living themed condominium with panoramic view of Jurong Lake, opposite the Lakeside MRT station. It takes the spa village of Lake Maggiore in Italy as its inspiration. An island spa village is the focal point of its spa amenities.

Lakeshore is equipped with all the amenities for a healthy lifestyle – jogging trail, swimming pools, reflexology footpath, tennis, badminton and basketball courts, golf putting green, and fitness stations.

This prestigious condominium project has 848 apartments comprising a selection of two-bedroom to four-bedroom apartments and maisonettes with sizes ranging from 860 square feet to 1,466 square feet. This development sits on a site area of 27,000 square metre.

Special care was taken to select and use building materials to achieve the desired quality finishing. Ong and Ong Architects and Lian Beng Construction ( 1988 ) selected Davco building materials. Davco's tile adhesive, TTB and Sanitized Colorgrout were selected for the installation of all their marble and ceramic tiles.

Davco's Dribond Marble with Mortaflex was used for tiling of swimming pools.

Davco K11 Flex- a cementitious waterproofing membrane was also supplied to this project.
